

Innovative Architects Listed Among Top Places to Work in Atlanta

Atlanta technology consulting firm simultaneously earns recognition as one of the 50 Best Workplaces for Flexibility in America and a 2016 Top Workplace

ATLANTA, GA--(Mar 30, 2016) - Innovative Architects (<https://www.innovativearchitects.com/>) believes that building a supportive work environment for employees results in a better overall customer experience. By helping their team succeed in the difficult task of balancing their personal lives and careers, the Atlanta-based company aims to provide a workplace culture that positively affects their clients. As a result, Innovative Architects recently earned recognition as one of the country's [50 Best Workplaces for Flexibility](#) and the [Top Workplaces of 2016](#).

To create its list of the 50 most flexible workplaces in America, Fortune magazine and Great Place to Work evaluated over 500 companies of various sizes across a wide range of industries. Innovative Architects came in 19th on the list.

Innovative Architects also recently made the Atlanta Journal-Constitution's 2016 list of the Top Workplaces in Atlanta for the 3rd year running. The AJC analyzed hundreds of companies and organizations in Atlanta. They selected only 165 companies to be recognized as Top Workplaces based solely on surveys about the workplace completed by their employees. According to the AJC, companies selected as Top Workplaces are not only better places to work, but also more likely to be successful than competitors.

“Building a positive work environment is about creating an atmosphere of trust, communication and creativity,” Dan Michaels, founder and CEO of Innovative Architects said. “A big thanks to the entire team for leveraging their talents and working together to make Innovative Architects such a great place to work.”

About Innovative Architects

[Innovative Architects](#) has been serving industries to help solve business and technology challenges since 2005. As a Microsoft Gold Certified Partner, the company leverages Microsoft's technologies to build cost-efficient, scalable, and secure cloud solutions that address clients' specific business objectives and provide customers quick, positive returns on IT investments. Innovative Architects has received numerous industry awards – including The Atlanta Journal-Constitution's Top Workplace for three years running, a 2016 Great Place to Work in Technology award by Fortune magazine, a Great Place to Work for Camaraderie award, also by Fortune magazine, and several Microsoft partnership awards.
