PRESS RELEASE

For Immediate Release

Innovative Architects becomes Certified Business Productivity Online Suite Solution Provider through Microsoft.

April 24, 2009 – Duluth, GA – In late 2008, Microsoft announced the commercial availability of Business Productivity Online Suite (BPOS) as part of the Microsoft Online Services offerings. Recently, Innovative Architects, a Microsoft Gold Certified Partner, passed the testing Microsoft has in place to become a Certified Business Productivity Online Suite Solution Provider.

For many organization, Microsoft Online Services uses the software-plus-services approach to give IT professionals the ability to quickly implement new capabilities and gain greater flexibility in deciding how best to develop, deploy and manage infrastructure and applications. These Online Services are designed to give organizations streamlined communications, simplified IT management and comprehensive security.

“In addition to BPOS assisting organizations in being more efficient and reducing costs, we’re finding that BPOS provides some of our clients with a way to operate more environmentally friendly. Employees can securely access information from anywhere, anytime making the virtual workspace a viable option,” said Mike Gallagher, Director of Project Services.

BPOS is the initial online service proposition consisting of enterprise-class software that includes Microsoft Exchange Online, Microsoft SharePoint Online, Microsoft Office Communications Online, and Microsoft Office Live Meeting. Additional services include Exchange Hosted Services and Microsoft Dynamics CRM Online. All are delivered via subscription services hosted by Microsoft.

Innovative Architects is a Microsoft Gold Certified Partner, based in Duluth, GA, specializing in solving business problems around business intelligence, data management, e-commerce, portals & collaboration, custom application engineering and business process and integration with Microsoft's enterprise software solutions including BizTalk Server, SharePoint, SQL Server, CRM, Commerce Server, and VisualStudio.NET. Innovative Architects can offer a single point of delivery and support through the entire IT lifecycle, from envisioning through day-to-day operations. Our consultants and engineers have the necessary technical, architectural, and project management skills to help mitigate risk associated with business and technical constraints and organizational diversity. Innovative Architects clients span across many industries of all sizes including AT&T, Coca-Cola, Bank of America, Siemens, BlueCross BlueShield, Hollywood Entertainment, Scana Energy, UPS, Lance, Author Solutions, Bodum, ESAB, Blackbaud, Brown Bag Marketing, Krispy Kreme, and Extended Stay Hotels. **For more information about Innovative Architects, or to schedule a complimentary 2-hour consultation on BPOS, please contact Renae Henderson, 678-387-5466, or visit our website, www.InnovativeArchitects.com.
